JBToolkit.Streams.Throttled
Stream.Write

JBToolkit.Streams.Throttled
Stream.Throttle

```
graph LR; A[JBToolkit.Streams.Throttled Stream.Read] --> C[JBToolkit.Streams.Throttled Stream.Throttle]; B[JBToolkit.Streams.Throttled Stream.Write] --> C;
```

The diagram illustrates a dependency or call relationship. On the left, there are two white rectangular boxes. The top box contains the text 'JBToolkit.Streams.Throttled Stream.Read' and the bottom box contains 'JBToolkit.Streams.Throttled Stream.Write'. On the right, there is a gray rectangular box containing the text 'JBToolkit.Streams.Throttled Stream.Throttle'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both the Read and Write methods interact with or call the Throttle method.
