The diagram illustrates a relationship between three members of the `System.Drawing.Html.CssLength` class. On the left, there are two white rectangular boxes. The top box contains the text `System.Drawing.Html.CssLength.ConvertEmToPixels`, and the bottom box contains `System.Drawing.Html.CssLength.ConvertEmToPoints`. On the right, there is a gray rectangular box containing the text `System.Drawing.Html.CssLength.CssLength`. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both `ConvertEmToPixels` and `ConvertEmToPoints` methods are associated with or return the `CssLength` property.
