

JBToolkit.WinForms.Round
Button.OnPaint

JBToolkit.WinForms.Round
TextBox.OnPaint

JBToolkit.WinForms.Colour
Helper.MakeTransparent

```
graph LR; A[JBToolkit.WinForms.Round Button.OnPaint] --> C[JBToolkit.WinForms.Colour Helper.MakeTransparent]; B[JBToolkit.WinForms.Round TextBox.OnPaint] --> C;
```

The diagram illustrates a shared utility method. Two separate OnPaint methods, one for a Round Button and one for a Round TextBox, both call the same MakeTransparent method located within the Colour Helper class. The arrows indicate the direction of the call from the callers to the target method.
